The PC and mobile terminals are interconnected and compatible with Android and IOS.

- Order management
- Tour package settings
- Order timeout reminders
- Operational data statistics
- Data dashboard & Real-time monitoring
- Boats management
- Dock management
- Fault management & Maintenance
- User and role management

ELECTRIC LEISURE BOAT / RENTAL-READY PLATFORM

ABOUT US

- 15 years of experience in high-end water leisure products
- 100+ different countries
- 600+ global customers
- 140+ patents accumulated
- 35,000 square meters factory
- 45 inspection processes

OUR PRODUCTS

AI intelligent boat system

- Smart management cloud platform
- Boat autonomous driving system
- Boat assisted driving system

Smart water leisure series

- Smart luxury catamarans
- Smart electric motorboats
- AI-powered autonomous boats
- Smart floating platforms

Smart waters operation and maintenance series

- Water quality monitoring robot
- Water surface cleaning robot
- Water rescue robot
- Movable automatic charging dock
- Movable smart dock
